Hey 👋 -

Thanks for downloading these presets - I hope that you have as much success with them as I do!

There are 2 variations within this preset pack, experiment with them as you please.

Here is a step by step guide on how to install presets on your desktop from the official Adobe website: https://helpx.adobe.com/sea/lightroom-cc/kb/faq-install-presets-profiles.html

Let me know if you have any questions, send them over to me on Instagram here.

Peace,
JP
